EXPERIENCE

Symmetry AI – Product Designer

OCT 2025 – FEB 2026

- Designed dashboard, Chrome extension, and chat flows to capture, store, and retrieve AI-generated context across multiple LLM's.
- Structured raw LLM outputs into usable artifacts (tasks, notes, summaries), improving clarity and actionability.
- Added visibility into AI reasoning (sources, steps) to reduce user confusion during output validation.
- Prototyped interactions using Git and Claude Code; shipped directly with engineers across dashboard and extension.

Nemo Labs – Product Designer

JUN 2024 – JUN 2025

- Designed portfolio, rewards, and transaction flows across multiple assets, handling deposits, tracking, and returns. (\$10M+ processed)
- Built AI-driven flows that take user inputs and generate investment actions (allocation, execution, tracking) (\$250K filled in one week)
- Implemented reward loops (incentives, milestones) tied to user actions to drive repeat usage.
- Defined design system and handled all design output across product and growth; mentored 1 designer.

ClayStack – Product Designer

APR 2021 – MAY 2024

- Designed deposit, rewards, and withdrawal flows across multiple assets, handling multi-step transactions and state changes end-to-end.
- Replaced multi-screen staking flows with a single transaction-style interface (input → confirm → output), increasing activation by ~20%.
- Built a rewards system with tasks, milestones, and incentives that brought in 25K+ users and 60K+ signups.
- Implemented gamified loops (missions, progress states) tied to user actions to drive referrals and repeat usage.
- Ran design sprints with leadership to define flows, edge cases, and feature scope before development.
- Conducted 10+ user interviews and usability tests; identified onboarding drop-offs and reworked entry flows.
- Created the design system and redefined the brand across product and marketing with an external agency.

SKILLS

UI · UX · Product Strategy · Information Architecture · Interaction Design · Design Systems · Systems Thinking · User Research · Usability Testing · Prototyping · HTML & CSS

TOOLS

Figma · Notion · PostHog · Asana · Google Analytics · Framer · Maze · Git · Cursor · Claude Code

EDUCATION

Anna University – B.E. in Computer Science and Engineering

AUG 2016 – MAY 2020

CERTIFICATION

Interaction Design Foundation – Human Computer Interaction (Top 1% Learner 2020)

JUN 2020 – APR 2021
